

Texas Industries of the Future

Call for Abstracts

on Energy Management Topics
To be Presented at the Texas Chemical Council
EHS Annual Conference
June 12, 2008

Moody Gardens Convention Center
Galveston, Texas

Abstracts Due Jan. 11, 2008

You are invited to submit a **one-page abstract** on a topic for presentation at the annual TCC EHS Seminar 2008. The one-day program on energy management will be held on June 12, 2008. Texas Industries of the Future is coordinating the track on Energy Management. Submit your abstract by **Friday, Jan. 11, 2008** to Kathey Ferland at kferland@mail.utexas.edu

Session topics will address issues of interest to managers and engineers in chemical manufacturing that are facing high energy prices, while continuing to meet stricter NO_x emission standards on their combustion units. Papers will be selected based on a review of abstracts by the Texas IOF Advisory Committee. Papers must be **non-commercial** in nature. **Presentations by owner/operators and case studies are especially encouraged.**

Session Topics:

Papers are requested on the following topics:

- Economics and Selling Your Program Successfully
- How to Overcome Energy Sub-Optimization at Your Plant
- Sustaining the Gains of Your Energy Program
- Energy: Achieving Total Employee Involvement
- Benchmarking Energy Use
- Heat Recovery
- New Technology Implementation (case studies from end-users)
- Integrating Energy Management into Your Other Plant Improvement Processes
- Process Controls
- Assessment Methodologies
- Best Practices (case studies and tools)
- Alternative Energy Projects at Industrial Sites
- Energy Management Programs
- Furnaces and Efficiency

Program Format:

The Energy Management Track will be part of the Texas Chemical Council's multi-day annual conference (June 9-12), with three other concurrent tracks addressing environmental, health and safety topics in chemical plants. Presentations will be 20 minutes in length, including Q&A.

See page 3 of this document for a description of information you should provide in your abstract.
